

Dedicated Servers : Managed

If the client does not have the in house resources to administer a server, then Hotchilli has the knowledge and experience to provide clients with a management service.

Hotchilli has extensive knowledge and experience with the following Operating Systems; Red Hat Linux, Windows 2003 .net and FreeBSD. We can also support software such as ColdFusion, PHP, MySQL, MS SQL and MS ASP.

Dedicated Server Packages

Hotchilli offer a comprehensive range of dedicated server packages to suit all your needs. All of the servers are capable of Corporate Website hosting and Virtual Server hosting for multiple websites and application.

Most Servers can be installed within 24 hours of receiving back the signed contract, setup fee and the first month's hosting charge.

Included with all of our Managed Dedicated Servers:

Monitoring and rectification of all security issues including Hacking & Denial of Service

Monitoring and rectification of all services, i.e. Power, Connectivity

Management of O/S including NT, Windows 2003 .net, Linux

Setup, management and support of: ASP, Coldfusion, SMTP, Web SMTP

Setup, management and support of IAS, FTP, Norton Anti-virus, cdonts

Setup of Websites, email, DNS

Firewall Management

Management of all software purchased from Hotchilli Internet

View Comparison Matrix for:

Linux

Windows

FreeBSD

Standard Features:

- All Servers are located in Telehouse
- 24/7 Network Monitoring
- 24/7 Server Monitoring
- Network Uptime Guarantee
- 10/100MB Un-Capped Connection
- 5,000MB of Bandwidth per month
- Allocation of a block of 8 IP Addresses

Management Includes:

- Installation of Server into Telehouse
- OS / Additional Agreed Software installed
- Setup of IP Addresses
- Operating System and Service Patches
- Hardware Maintenance
- Hardware/Software Failure
